

CONSTRUCTION UPDATE – 17 APRIL 2020

Extension of Construction Hours and Minor Works this Sunday

We want to notify you of some recent changes to construction work hours announced by the Planning and Public Spaces Minister on 2 April 2020.

The Environmental Planning and Assessment (COVID-19 Development – Construction Work Days) Order 2020 is now in place and allows construction sites in NSW to operate on weekends and public holidays. You can view a copy of the Order by searching for Government Gazette No 68 on gazette.legislation.nsw.gov.au.

This new order will make it easier for workers to abide by social distancing rules while keeping construction projects progressing, by allowing building work to be spread across more days of the week.

This means that construction at South Eveleigh is permitted to occur from 7:30am to 5:30pm 7 days a week. At this stage we are not planning to work until 5:30pm on weekends and will seek to complete works prior to 3:30pm, but if it is necessary to complete essential works, we may occasionally proceed with construction between the hours of 7.30am and 5.30pm as permitted.

In line with the Order, no high impact activities such as rock breaking, rock hammering, sheet piling, pile driving or similar activities will be carried out during these extended work hours.

Some minor works will be undertaken this Sunday, 19 April in Building 2 along Central Avenue. This will include cladding works on the underside of the roof, in the loading dock and works internally such as painting and cleaning. We do not anticipate these works to cause significant noise.

The health and safety of the community and all people working on the project is paramount. The project is practicing social distancing and has implemented additional health and personal hygiene measures consistent with health advice, to ensure work can continue safely on site.

Thank you for your patience and ongoing cooperation during this essential work.
