

CONSTRUCTION UPDATE – 6 May 2020

Closure of footpath on Locomotive Street

We are writing to notify you that we are temporarily closing Locomotive Street to pedestrians from today until June 1. All vehicle access will be maintained while the footpath is closed.

Please refer to the map on the following page for details of the closure and alternative routes.

The temporary closure of the footpath will ensure that works on the traveller and pedestrian paths are able to be completed faster. We are making the most of the current reduction in foot traffic in the precinct to do this work in a more efficient and timely manner and to ensure that a single finished footpath is completed by June 01 when we expect an increase in foot traffic within the precinct.

The works being undertaken during the footpath closure are not anticipated to be noisy works, being only the construction of the concrete roadway and paving to the footpath. No jackhammering will need to take place.

If you have any questions or concerns, or if you require more information, please contact south.eveleigh@mirvac.com or call **1800 870 549**.

Thank you for your patience and ongoing cooperation during this essential work.

Kind regards,

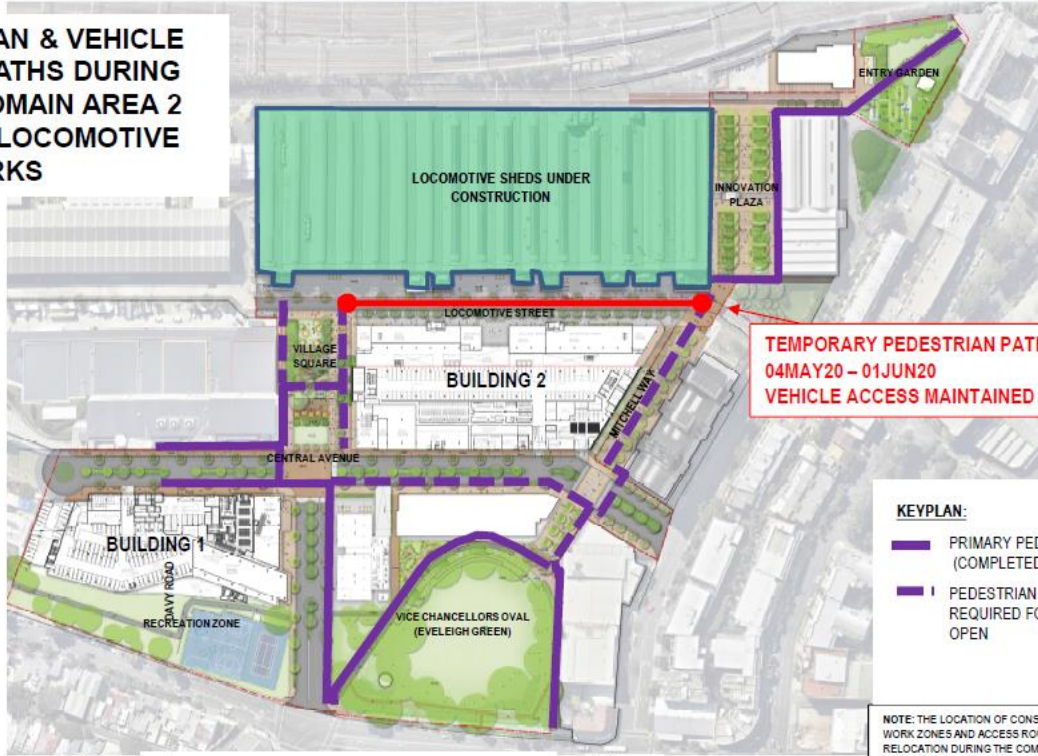

South Eveleigh
