2 Executive Summary

This Compliance Report is written in accordance with the Compliance Reporting Post Approval Requirements (Department 2018).

3 Introduction

3.1 Background

Historically, the broader South Eveleigh site was used for railway maintenance, storage and other associated industries. Use of the South Eveleigh site as marshaling yards and workshops formed part of a large railway-based precinct on both sides of the main railway line, dating from 1882 and growing in size until its closure in 1989. Since this time, the precinct has been progressively redeveloped and repurposed.

In 2014, the NSW Government resolved to offer development sites within South Eveleigh for sale through a selective tender process conducted by Urban Growth NSW Development Corporation (UGDC). In November 2015 Mirvac Projects Pty Ltd (Mircvac) was named as the successful party and ownership and development rights of the precinct were subsequently transferred.

The redevelopment of the Locomotive Workshop is also part of Mirvac's redevelopment strategy for South Eveleigh. Two State Significant Development Applications were approved by the Independent Planning Commission on 22 February 2019. SSD 8517 relates to Bays 1-4a and SSD 8449 relates to Bays 5-15.

3.2 Site Description

The Locomotive Workshop building is located within the northern portion of South Eveleigh. It is legally described as Lot 4000 in DP1194309, and has an area of 26,984m².

The site is owned by Mirvac Projects (Retail and Commercial) Pty Limited as the Trustee of the Mirvac Locomotive Trust.

3.3 Project Details

Project name	Locomotive Workshop, Australian Technology Park
Application number	SSD 8517
Project address	2 Locomotive Street, Eveleigh, NSW 2015
Project phase	Construction
Compliance reporting period	11/11/19-12/06/20
Project activity summary	Base building fitout works continuing, final practical completion estimated in November 2020. Tenant fitout works to continue. Public Domain works have not commenced construction.
Key project personnel	Uma Springford, Senior Development Manager, Mircvac Email: uma.springford@mircvac.com Chris Callaghan, Project Manager, Mircvac Email: chris.callaghan@mircvac.com

3.4 Compliance Monitoring and Reporting Schedule

The table below outlines the frequency of compliance reporting for the project.

Report	Timing	Anticipated Lodgement Date
Compliance Monitoring and Reporting Program	Submitted to DPE 28/02/19	
Pre-Construction Compliance Report Rev 3	Submitted to DPE 21/06/19	
Compliance Report 1	26 weeks following Commencement of Works	11/11/2019
Compliance Report 2	26 weeks following Compliance Report 1	11/05/2020 Actual lodgement date 12/06/20 (this report)
Compliance Report 3	26 weeks following Compliance Report 2	

4 Compliance Status Summary

The compliance table (Appendix B) outlines compliance with conditions of consent required for the project.

In the reporting period a total of five non-compliances were recorded.

The following Non-Compliances have been identified in the reporting period:

Compliance Requirement and ID	Description	Who was it reported to	Mirvac response
A13 – NON-COMPLIANCE NOTIFICATION	In Mirvac's A13 letter on 11 March 2020, Mirvac stated that it was made aware of non-compliances on 3 rd March 2020 8 days prior to when the letter was submitted. This is beyond the 7 day period from when Mirvac became aware of the non-compliance.	DPIE	Mirvac consider that this is a minor error in timing of submitting the letter within the 7 day notification period.
A16 - REVISION OF STRATEGIES, PLANS AND PROGRAMS	Mirvac did not within three months of the submission of: - Compliance Report 1 SSD 8517, submitted	DPIE in Non-Compliance Letter on 11 March 2020	Mirvac issued a letter to the Department notifying them a review will be undertaken of its strategies, plans and programs on 3 rd March 2020.

Construction Compliance Report 2

November 2020

	<p>11th November 2019;</p> <ul style="list-style-type: none"> - Compliance Report 1 SSD 8449, submitted 16th December 2019; - Independent Audit Report 1 SSD 8517, submitted on 22nd October 2019 - Independent Audit Report 1 SSD 8449, submitted on 1st November 2019 <p>Review its strategies, plans and programs.</p>		<p>Mirvac will also conduct a review of all plans and strategies every three-months moving forward so that it does not miss a future non-compliance.</p>
C2 - NOTIFICATION OF COMMENCEMENT	<p>Mirvac did not notify the Department prior to commencement of stage 4 – fitout and services</p>	DPIE	<p>Mirvac have implemented a column on its tracking register to prompt the project team to submit notifications prior to the commencement of the respective stage.</p>
C5 - COMPLIANCE REPORTING	<p>Mirvac did not within 26 weeks of the submission of Compliance Report 1 submit the following:</p> <ul style="list-style-type: none"> - Compliance Report 2 SSD 8517, submitted 12th June 2020. 	DPIE	<p>This report was meant to be submitted on 11/05/20 but was issued on 12/06/20. There was no particular reason for the late submission other than an error in timing for submission. Mirvac have reviewed the timing for future reports.</p>
C6 - COMPLIANCE REPORTING	<p>Mirvac did not within 60 days of the submission make available the following Compliance Reports on its website:</p> <ul style="list-style-type: none"> - Compliance Report 1 SSD 8517, submitted 11th November 2019; - Compliance Report 1 SSD 	DPIE in A13 letter on 11 March 2020	<p>Documents made publicly available on website. Future compliance reports to be uploaded to website following their submission.</p>

5 Previous Report Action

To be outlined in next Compliance Report 3.

6 Incidents

No environmental incidents have occurred and there have been no incidents requiring notification.

7 Complaints

No complaints have been received in relation to SSD 8517.

Appendix A – Compliance Report Declaration Form

Compliance Report Declaration Form	
Project Name	Locomotive Workshop, South Eveleigh
Project Application Number	SSD 8517
Description of Project	Bays 1-4a Adaptive Reuse of the Locomotive Workshops
Project Address	2 Locomotive Street, Eveleigh NSW 2015
Proponent	Mirvac Projects (Retail & Commercial) Pty Limited
Title of Compliance Report	Compliance Report 2 Rev 2
Date	28/10/20

I declare that I have reviewed relevant evidence and prepared the contents of the attached Compliance Report and to the best of my knowledge:

- the Compliance Report has been prepared in accordance with all relevant conditions of consent;
- the Compliance Report has been prepared in accordance with the Compliance Reporting Post Approval Requirements;
- the findings of the Compliance Report are reported truthfully, accurately and completely;
- due diligence and professional judgement have been exercised in preparing the Compliance Report; and
- the Compliance Report is an accurate summary of the compliance status of the development.

Notes:

- 1.0 Under section 10.6 of the Environmental Planning and Assessment Act 1979 a person must not include false or misleading information (or provide information for inclusion in) a report of monitoring data or an audit report produced to the Minister in connection with an audit if the person knows that the information is false or misleading in a material respect. The proponent of an approved project must not fail to include information in (or provide information for inclusion in) a report of monitoring data or an audit report produced to the Minister in connection with an audit if the person knows that the information is materially relevant to the monitoring or audit. The maximum penalty is, in the case of a corporation, \$1 million and for an individual, \$250,000; and
- 2.0 The Crimes Act 1900 contains other offences relating to false and misleading information: section 307B (giving false or misleading information – maximum penalty 2 years' imprisonment or 200 penalty units, or both).

				<p>modifications (S4.55), where approval has been sought from the Planning Secretary in relation to a condition of consent (i.e. a plan, strategy or drawing).</p> <ul style="list-style-type: none"> In instances where a direction has been provided it is related to a construction certificate or occupation certificate and therefore Mirvac have complied with these directions in order to obtain this construction certificate or occupation certificate. This is also monitored by the Principal Certifying Authority. 	
A2	(c) generally, in accordance with the EIS and Response to Submissions;	At all times	Construction certificates are not provided if compliance with the condition is achieved. In this case a modification S4.55 is submitted to the Department of Planning.	All works have been in accordance with the EIS and Response to Submissions.	Compliant
A2	(d) in accordance with the approved plans in the table below (refer to Table provided in the consent).	At all times	Construction certificates are not provided if compliance with the condition is achieved. In this case a modification S4.55 is submitted to the Department of Planning.	In instances where compliance cannot be achieved in accordance with (d), Mirvac have submitted a modification S4.55 to the Department of Planning NSW for assessment. Mirvac have made several modifications to the approved plans (A2), all modifications have been approved by the Department of Planning NSW. All modifications are on the public website or Planning Portal.	Compliant

Construction Compliance Report 2

November 2020

A3	<p>Consistent with the requirements in this consent, the Planning Secretary may make written directions to the Applicant in relation to:</p> <p>(a) the content of any strategy, study, system, plan, program, review, audit, notification, report or correspondence submitted under or otherwise made in relation to this consent, including those that are required to be, and have been, approved by the Planning Secretary; and</p>	At all times	Evidence of compliance with any directions from the Planning Secretary	Mirvac have complied with the written directions of the Planning Secretary. Written directions have been received in relation to approved modifications, approved plans and strategies or assessment on compliance reports.	Compliant
A3	(b) the implementation of any actions or measures contained in any such document referred to in condition A3(a) above.	At all times	Compliance with (b) is monitored in the Independent Audit Report and Mirvac's internal audits	<p>Compliance with the (b) is tracked in Mirvac's compliance tracking register against documents, plans and strategies outlined in section B of the conditions of consent.</p> <p>Mirvac's performance is also assessed in the Independent Audit Report and evidence of compliance is provided relevant to each document.</p>	Compliant
A4	The conditions of this consent and directions of the Planning Secretary prevail to the extent of any inconsistency, ambiguity or conflict between them and a document listed in condition A2(c). In the event of an inconsistency, ambiguity or conflict between any of the documents listed in condition A2(c), the most recent document prevails to the extent of the inconsistency, ambiguity or conflict.	At all times	Evidence of any inconsistency with the condition.	Mirvac advised there have been no instances where inconsistencies, ambiguity or conflict have occurred as described in this condition.	Not triggered
EVIDENCE OF CONSULTATION					
A5	Where conditions of this consent require consultation with an identified party, the Applicant must:	At all times	Evidence of consultation to be provided in the relevant	<ul style="list-style-type: none"> To obtain approval from the Planning Secretary for the relevant document evidence of consultation was provided in the submission. 	Compliant

	(a) consult with the relevant party prior to submitting the subject document to the Planning Secretary for approval; and		submission to the Planning Secretary	<p>Relevant conditions in this reporting period were: E11 Workplace Travel Plan (TfNSW)</p> <ul style="list-style-type: none"> E18 Loading Dock Management Plan (Sydney Coordination Office and Council) 	
A5	<p>(b) provide details of the consultation undertaken including:</p> <p>(i) the outcome of that consultation, matters resolved and unresolved; and</p> <p>(ii) details of any disagreement remaining between the party consulted and the Applicant and how the Applicant has addressed the matters not resolved.</p>	At all times	Details are to be provided in the submission to the Planning Secretary to obtain the relevant approval	<ul style="list-style-type: none"> To obtain approval from the Planning Secretary for the relevant document evidence of consultation was provided in the submission. Relevant conditions in this reporting period were: <ul style="list-style-type: none"> B39 Detailed Design information (Council, Heritage NSW) E11 Workplace Travel Plan (TfNSW) E18 Loading Dock Management Plan (Sydney Coordination Office and Council) 	Compliant
STRUCTURAL ADEQUACY					
A6	<p>All new buildings and structures, and any alterations or additions to existing buildings and structures, that are part of the development, must be constructed in accordance with the relevant requirements of the BCA.</p> <p><i>Notes: • Under Part 4A of the EP&A Act, the Applicant is required to obtain construction and Occupation Certificates for the proposed building works.</i></p>	Construction	Design Statement from Structural engineer and Architect	Closed out in Compliance Report 1.	Compliant

Construction Compliance Report 2

November 2020

	<ul style="list-style-type: none"> Part 8 of the EP&A Regulation sets out the requirements for the certification of the development. 				
OPERATION OF PLANT AND EQUIPMENT					
A7	<p>All plant and equipment used on site, or to monitor the performance of the development must be:</p> <p>(a) maintained in a proper and efficient condition; and</p>	At all times	Evidence of monitoring all plant and equipment	<p>The Mirvac HSE Officer maintains an online HSE Management System, 'Hammertech', that includes an online register for onsite plant. It records the date of last service and sends out notifications for inspections that fall due (e.g. 90 day inspection).</p> <p>Daily plant and equipment checks are carried out.</p>	Compliant
A7	<p>(b) operated in a proper and efficient manner.</p>	At all times	Evidence of monitoring all plant and equipment	<p>Supervisors conduct Task Observations that include checking that operators are conducted safety checks of plant.</p> <p>Daily Safety Check / Pre-startup safety check records were sighted for four plant: an EWP, a forklift, a truck and a crane. Working plant (e.g. excavator, cranes, truck) were observed to be operating at the time of the site visit and they appeared to be operated in a proper and efficient manner.</p>	Compliant
APPLICABILITY OF GUIDELINES					
A8	<p>References in the conditions of this consent to any guideline, protocol, Australian Standard or policy are to such guidelines, protocols, Standards or policies in the form they are in as at the date of this consent.</p>	At all times	Where related to construction certificates or occupation certificates design certificates and installation certificates reference the relevant terms.	<p>All relevant design statements and installation certificates for relevant construction certificates and occupation certificates reference the relevant terms in the condition.</p> <p>-</p>	Compliant

Construction Compliance Report 2

November 2020

A9	However, consistent with the conditions of this consent and without altering any limits or criteria in this consent, the Planning Secretary may, when issuing directions under this consent in respect of ongoing monitoring and management obligations, require compliance with an updated or revised version of such a guideline, protocol, Standard or policy, or a replacement of them.	At all times	Evidence of direction from the Planning Secretary relevant to this condition	Mirvac have not received any direction in relation to the condition.	Not triggered
MONITORING AND ENVIRONMENTAL AUDITS					
A10	Any condition of this consent that requires the carrying out of monitoring or an environmental audit, whether directly or by way of a plan, strategy or program, is taken to be a condition requiring monitoring or an environmental audit under Division 9.4 of Part 9 of the EP&A Act. This includes conditions in respect of incident notification, reporting and response, non-compliance notification and independent auditing. <i>Note: For the purposes of this condition, as set out in the EP&A Act, “monitoring” is monitoring of the development to provide data on compliance with the consent or on the environmental impact of the development, and an “environmental audit” is a periodic or particular documented evaluation of the development to provide information on compliance with the consent or the environmental management or impact of the development.</i>	At all times	Ensure any relevant documents are undertaken in accordance with condition.	Independent Audits have been carried out in accordance with the condition. No incident notifications have been submitted; non-compliance notifications have been made in accordance with the condition of consent.	Compliant
INCIDENT NOTIFICATION, REPORTING AND RESPONSE					
A11	The Department must be notified in writing to compliance@planning.nsw.gov.au immediately after the Applicant becomes aware of an incident. The notification must identify the development (including the development application number and the name of the development if it has one) and set out the location and nature of the incident.	At all times	Evidence of submission of notification	No incidents have occurred to date. Therefore, Mirvac have not notified DPIE of an incident.	Compliant

Construction Compliance Report 2

November 2020

A12	Subsequent notification must be given and reports submitted in accordance with the requirements set out in Appendix 1.	At all times	Evidence of submission of notification	No incidents have occurred to date. Therefore, Mirvac have not notified DPIE of an incident.	Compliant
NON-COMPLIANCE NOTIFICATION					
A13	The Department must be notified in writing to compliance@planning.nsw.gov.au within seven days after the Applicant becomes aware of any non-compliance. The PCA must also notify the Department in writing to compliance@planning.nsw.gov.au within seven days after they identify any non-compliance.	At all times	Evidence of submission of notification	Mirvac notified the DPIE of one non-compliance in the reporting period 1. 11/03/20 in relation to breaches regarding condition A16 Review of Strategies and Plans and C6 late submission of the Compliance Report. In addition, this A13 submission stated that Mirvac was made aware of the non-compliance on the wrong date – which would seem that this is also a non-compliance this was an error. However Mirvac accept this as a non-compliance and therefore have marked this condition as non-compliant.	Non-Compliant
A14	The notification must identify the development and the application number for it, set out the condition of consent that the development is non-compliant with, the way in which it does not comply and the reasons for the non-compliance (if known) and what actions have been, or will be, undertaken to address the non-compliance.	At all times	Evidence of submission of notification	Mirvac's notification met the requirements of Condition A14.	Compliant
A15	A non-compliance which has been notified as an incident does not need to also be notified as a non-compliance.	At all times	To note	Not applicable	Not triggered
REVISION OF STRATEGIES, PLANS AND PROGRAMS					
A16	Within three months of: (a) the submission of a Compliance Report under condition C5;	At all times	Letter to the DPIE	Mirvac did not review the strategies and plans and notify the DPIE within three months of the Compliance Report 1	Non-Compliant

Construction Compliance Report 2

November 2020

	the strategies, plans and programs required under this consent must be reviewed, and the Department must be notified in writing that a review is being carried out.			(11/11/19). This non-compliance was addressed in Mirvac's notification on 03/03/20 to the DPIE.	
A16	(b) the submission of an incident report under condition A11;	At all times	Letter to the DPIE	No incidents recorded in the reporting period	Not triggered
A16	(c) the submission of an Independent Audit under condition C8;	At all times	Letter to the DPIE	Mirvac did not review the strategies and plans and notify the DPIE within three months of the Independent Audit Report 1 (submitted 22/10/19). This non-compliance was addressed in Mirvac's notification on 03/03/20 to the DPIE.	Non-Compliant
A16	(d) the approval of any modification of the conditions of this consent; or	At all times	Letter to the DPIE	Mirvac did not review the strategies and plans and notify the DPIE within three months of the approval of MOD 4 Skylights on 20/11/19. This non-compliance was addressed in Mirvac's notification on 03/03/20 to the DPIE.	Non-Compliant
A16	(e) the issue of a direction of the Planning Secretary under condition A3 which requires a review,	At all times	Letter to the DPIE	Mirvac did not review the strategies and plans and notify the DPIE within three months of the approval of MOD 4 Skylights on 20/11/19 and the subsequent direction by the Planning Secretary. This non-compliance was addressed in Mirvac's notification on 03/03/20 to the DPIE.	Non-Compliant
A17	If necessary to either improve the environmental performance of the development, cater for a modification or comply with a direction, the strategies, plans and programs required under this consent must be revised to the satisfaction of the Planning Secretary. Where revisions are required, the revised	At all times	Update document as required by DPIE	Mirvac have not yet updated any strategies, plans or programs.	Not triggered

Construction Compliance Report 2

	(l) pedestrian/cyclist and traffic management measures.				
PRE-CONSTRUCTION DILAPIDATION REPORT					
B15	<p>The Applicant is to engage a suitably qualified person to prepare a Pre-Construction Dilapidation Report detailing the current structural condition of all adjoining buildings, infrastructure and roads (including the public domain site frontages, the footpath, kerb and gutter, driveway crossovers and laybacks, kerb ramps, road carriageway, street trees and plantings, parking restriction and traffic signs, and all other existing infrastructure along the street) within the 'zone of influence'. Any entry into private land is subject to the consent of the owner(s) and any inspection of buildings on privately affected land shall include details of the whole building where only part of the building may fall within the 'zone of influence'. The report shall be approved by the PCA prior to the issue of the Stage 2 Construction Certificate. A copy of the report is to be forwarded to each of the affected property owners.</p> <p>In the event that access for undertaking a Pre-Construction Dilapidation Report is denied by an adjoining owner, the Applicant must demonstrate, in writing, to the satisfaction of the PCA that all reasonable steps have been taken to obtain access and advise the affected property owner of the reason for the report and that these steps have failed.</p> <p>Any damage to the public way including trees, footpaths, kerbs, gutters, road carriageway and the like must be made safe and functional by the Applicant. Damage must be fully rectified by the Applicant in accordance with the Council's standards prior to commencement of first use of the commercial bays (bays 5-15) of the Locomotive Workshop.</p>	Construction	Plan to be prepared and issued to the Certifying Authority for the Construction Certificate and commencement of first use. INSTALLATION OF WATER EFFICIENCY MEASURES					
B20	All toilets installed within the development must be of water efficient dual-flush capacity with at least 4-star rating under the Water Efficiency and Labelling Scheme (WELS). The details must be submitted for the consent of the PCA, prior to the issue of the Stage 4 Construction Certificate.	Construction	Design Statement and FF&E to satisfaction of PCA.	FF&E and design statement outlining evidence with the condition of consent was approved by the PCA.	Compliant
B21	All taps and shower heads installed within the development must be water efficient with at least a 3-star rating under the Water Efficiency and Labelling Scheme (WELS), where available. The details must be submitted for the approval of the PCA, prior to issue of the Stage 4 Construction Certificate.	Construction	Design Statement and FF&E to satisfaction of PCA.	FF&E and design statement outlining evidence with the condition of consent was approved by the PCA.	Compliant
B22	New urinal suites, urinals and urinal flushing control mechanisms installed within the development must demonstrate that products have been selected with at least a 4-star rating under the Water Efficiency and Labelling Scheme (WELS).	Construction	Design Statement and FF&E to satisfaction of PCA.	FF&E and design statement outlining evidence with the condition of consent was approved by the PCA.	Compliant
B23	Systems must include 'smart controls' to reduce unnecessary flushing. Continuous flushing systems are not approved. Details are to be submitted to and approved by the PCA, prior to the issue of the relevant Construction Certificate.	Construction	Design Statement and FF&E to satisfaction of PCA.	FF&E and design statement outlining evidence with the condition of consent was approved by the PCA.	Compliant
RAINWATER HARVESTING AND RECYCLING					
B24	Prior to the issue of the Stage 3 Construction Certificate, the Applicant is to detail how rainwater harvesting and recycled water reuse (RH&RWR) for the Locomotive Workshop will integrate with the RH&RWR strategy for the ATP precinct (approved under SSD 7317). This strategy is to be prepared in consultation with Council and submitted to and approved by the Secretary.	Construction	Approval from the Planning Secretary required on Strategy	Reported as compliant in previous compliance report. No further comment.	Compliant
STORMWATER AND DRAINAGE					

Construction Compliance Report 2

November 2020

B25	Prior to a Construction Certificate being issued for any excavation, civil construction, drainage or building work (whichever is earlier), excluding approved preparatory or demolition work, details of the proposed stormwater disposal and drainage from the development including a system of on-site stormwater detention in accordance with Council's standard requirements and details of the provision and maintenance of overland flow paths must be submitted to and approved by the PCA. All approved details for the disposal of stormwater and drainage are to be implemented in the development.	Construction	Relevant Authority Approval required prior to issue of first CC	Reported on in first compliance report. No further comment.	Compliant
B26	The requirements of Sydney Water with regard to the on-site detention of stormwater must be ascertained and complied with. Evidence of the approval of Sydney Water to the onsite detention must be submitted prior to a Construction Certificate being issued excluding any approved preparatory, demolition or excavation works.	Construction	Relevant Authority Approval required prior to issue of first CC	Reported on in first compliance report. No further comment.	Compliant
B27	Any proposed connection to the relevant authority underground drainage system will require the owner to enter into a Deed of Agreement with the relevant authority and obtain registration on Title of a Positive Covenant prior to Construction Certificate being issued for public domain works or above ground building works, whichever is earlier, and prior to the commencement of any work within the public way. Note: Contact Council's Legal Unit prior to the drafting of the positive covenant.	Construction	Relevant Authority Approval required prior to issue of first CC	Reported on in first compliance report. No further comment.	Compliant
B28	An "Application for Approval of Stormwater Drainage Connections" must be submitted to the relevant authority with the appropriate fee at the time of lodgement of the proposal for connection of stormwater to the relevant authority's drainage system.	Construction	Relevant Authority Approval required prior to issue of first CC	Reported on in first compliance report. No further comment.	Compliant

	trafficable loads up to the AS 2890 definition of a Heavy Rigid Vehicle and the proposed frequency of trucks. Details are to be provided to the satisfaction of the PCA prior to the issue of the relevant Construction Certificate.				
	GLAZING				
B44	<p>All new external glazing used for the Locomotive is to be clear. Tinted glazing is not permitted.</p> <p>Frosted glazing is only permitted to be used in existing heritage arched windows of the Locomotive Workshop, to match surrounding frosted glazing within the same window. Where frosted glazing is to be used, the project heritage consultant must, prior to installation, verify consistency with the appearance of the existing heritage fabric.</p>	Construction	SOS to be provided for any frosted glazing to be installed		Not triggered
	TENANCY FIT OUT GUIDELINES				
B45	<p>Prior to the issue of the Stage 4 Construction Certificate, tenant fit-out design guidelines for the following areas within Bays 1-4a within the Locomotive Workshop are to be prepared, in consultation with the Heritage Council and Council, and to the satisfaction of the Planning Secretary:</p> <p>(a) Bays 1 and 2 north (ground floor and mezzanine level);</p> <p>(b) Bays 3-4a north (ground floor);</p> <p>(c) Bays 3-4a north (first floor);</p> <p>(d) Bays 3-4a south (ground floor and first floor);</p> <p>The guidelines are to be consistent with the visual sight line zone (as shown on the approved ground floor plan), which requires:</p> <p>(a) all balustrades within the zone to be semi-framed glazing</p>	Construction	Tenancy Guidelines to be prepared in consultation with HC and CoS and issued to Planning Secretary for approval.	A-E refers to contents required in the report and therefore not split out. Reported on the previous compliance report. Closed	Compliant

Construction Compliance Report 2

November 2020

	<p>(b) tenancy walls and fit outs within the zone are to be low height (maximum of 1200 mm) and open or transparent</p> <p>(c) tenancy walls are to be glazed and any moveable heritage items are integrated into the fit out</p> <p>(d) fit out items must not cover or obscure the heritage structure or equipment</p> <p>(e) full height walls on level 1 are to be avoided in the zone or glazed if proposed</p> <p>The guidelines are to require individual lighting plans for each tenancy, that are consistent with the lighting design prepared for the Locomotive Workshop.</p> <p>The tenant fit-out guidelines are to be prepared to ensure future tenants are aware of the cultural significance of the Locomotive Workshop, the ongoing operations of the Blacksmith who is permitted to continue to operate 24 hours a day and 7 days per week, the Blacksmith Plan of Management and the requirements for their on-going conservation and management. The guidelines are to be informed by the Stage 1 and final or draft Stage 2 Heritage Interpretation Plans, the ATP Conservation Management Plan and relevant NSW Heritage Division guidelines. The guidelines are to include details of lighting design to be consistent with the overall lighting design for the Locomotive Workshop.</p> <p>The Applicant must ensure all future development applications for fit-out works are consistent with the approved fit-out design guidelines.</p>				
BLACKSMITH PLAN OF MANAGEMENT					
B46	A plan of management for the continued operation of the Blacksmith must be submitted and endorsed by the Secretary prior to the issue of any construction certificate. The plan of management must be prepared by the Applicant and include:	Construction	Plan of management to be prepared and endorsed by the Planning Secretary.	Reported on in previous compliance report.	Compliant

Construction Compliance Report 2

November 2020

	a) the continued permitted hours of operation: 24 hours and day 7 days per week				
B46	b) a complaint register, outlining the nature and location of compliant/s. The register must also outline what if any mitigation was undertaken by the Applicant. The register must be provided to the Secretary every 6 months.	Operation	Complaints register to be issued every 6 months	No complaints have been registered for the Blacksmith as the building is under construction. Therefore, there is no complaints register to be issued to the Planning Secretary.	Not triggered
MOVEABLE HERITAGE					
B47	The conservation and management of moveable heritage items is to be informed by an experienced moveable heritage consultant with a working knowledge of the site. The placement, storage and interpretation of all moveable heritage items housed within the Locomotive Workshop is required to be finalised as part of the Stage 2 Heritage Interpretation Plan and must occur in accordance with the Heritage Impact Statement, the requirements of the Conservation Management Plan (CMP), Heritage Asset Management Strategy (HAMS) and the Moveable Collections Management Plan (MCMP).	Construction	Details of moveable heritage conservation to be included in the Stage 2 HIP. To be submitted prior to CC1.	Reported on in the first compliance report. No further changes to the reports.	Compliant
B48	The MCMP is to be updated and completed, in consultation with the Heritage Council and Council, within 12 months of the issue of the first Occupation Certificate for the Locomotive Workshop, to provide detailed recommendations on the future conservation, management, display conditions, storage, security, and identify the location and management of all moveable heritage.	Post-Occupation	MCMP to be updated in consultation with Heritage Council and Council		Not triggered
PART C PRIOR TO COMMENCEMENT OF WORKS					
NOTIFICATION OF COMMENCEMENT					
C1	The Department must be notified in writing of the dates of commencement of physical work and operation at least 48 hours before those dates.	Construction and operation	Notice to be issued to the Department prior to	Reported on in the previous compliance report.	Compliant

Construction Compliance Report 2

November 2020

			construction starting and operation.	Operation notification has not been triggered.	
C2	If the construction or operation of the development is to be staged, the Department must be notified in writing at least 48 hours before the commencement of each stage, of the date of commencement and the development to be carried out in that stage.	Construction	Notice to be issued to the Department prior to construction certificates for stages 1-6.	In the reporting period, Mirvac did not issue a Notice of Commencement letter to the Department 48 hours prior to the commencement of Stage 4 (fitout and Services). However, the PCA Philip Chun issued a letter to the Department upon the issue of the CC4 however this was not 48 hours' notice as works commenced upon receipt of the CC. To address the non-compliant Mirvac issued an A13 notification on 18/06/20.	Non-Compliant
ACCESS TO INFORMATION					
C3	At least 48 hours before the commencement of construction until the completion of all works under this consent, or such other time as agreed by the Planning Secretary, the Applicant must: (a) make the following information and documents (as they are obtained or approved) publicly available on its website: (i) the documents referred to in condition A2 of this consent; (ii) all current statutory approvals for the development; (iii) all approved strategies, plans and programs required under the conditions of this consent; (iv) regular reporting on the environmental performance of the development in accordance with the reporting arrangements in any plans or programs approved under the conditions of this consent;	At all times	Ensure documents are publicly available on the project website.	The 'Construction & Development Updates' and 'South Eveleigh Construction Updates' websites have all available documents on the website: https://southeveleigh.mirvac.com/about/construction-and-development-updates	Compliant

C9	(b) submit the response to the Department; an	Construction	IEA to be issued to the Department	Nothing new to report this reporting period, no new IEA has been submitted, the next one is due in October 2020.	Not triggered
C9	(c) make each Independent Audit Report and response to it publicly available no later than 60 days after submission to the Department and notify the Department in writing at least 7 days before this is done.	Construction	Notify DPIE 7 days before uploading the document to the website which must be within 60 days of submitting the report	Mirvac notified the DPIE regarding 7-day notice of submitting IEA 1 on 18/11/20. The document was uploaded on 26/11/20.	Compliant
	COMMUNITY COMMUNICATION STRATEGY				
C10	The Community Communication Strategy prepared and approved under SSD 7317 shall be updated in consultation with the Community Liaison Group and heritage consultant/s and or expert/s (Condition B10) to provide mechanisms to facilitate communication between the Applicant, the relevant Council and the community (including adjoining affected landowners and businesses, and others directly impacted by the development), during the design and construction of the development and for a minimum of 12 months following the completion of construction.	Pre-construction and construction	Update the CCS 7317 for first construction certificate and run meetings 12 months after the completion of works	CLG meetings are ongoing and in accordance with condition.	Compliant
C11	The Community Communication Strategy must: (a) identify people to be consulted during the design and construction phases; (b) set out procedures and mechanisms for the regular distribution of accessible information about or relevant to the development; (c) provide for the formation of community-based forums, if required, that focus on key environmental management issues for the development; (d) set out procedures and mechanisms:	Pre-Construction	The CCS must be updated to include details a-d	Requirements a-d have not been split as they are requirements of the strategy (one document). This was reported on in the first compliance report and still compliant.	Compliant

Construction Compliance Report 2

November 2020

	<p>(i) through which the community can discuss or provide feedback to the Applicant;</p> <p>(ii) through which the Applicant will respond to enquiries or feedback from the community; and</p> <p>(iii) to resolve any issues and mediate any disputes that may arise in relation to construction and operation of the development, including disputes regarding rectification or compensation.</p>				
C12	The Community Communications Strategy must be submitted to the Planning Secretary for approval no later than one month prior the commencement of any work.	Pre-Construction	Submit CCS to Planning Secretary for approval one month before construction work.	Reported on in the first compliance report. No further action.	Compliant
C13	Work for the purposes of the development must not commence until the Community Communication Strategy has been approved by the Planning Secretary, or within another timeframe agreed with the Planning Secretary.	Pre-Construction	Submit CCS to Planning Secretary for approval before construction work.	Reported on in the first compliance report. No further action.	Compliant
C14	The Community Communication Strategy, as approved by the Planning Secretary, must be implemented for a minimum of 12 months following the completion of construction.	Construction	CCS implemented for 12 months following construction	Reported on in the first compliance report, the previous CCS is still current and being implemented.	Compliant
COMPLIANCE					
C15	The Applicant must ensure that all of its employees, contractors (and their sub-contractors) are made aware of, and are instructed to comply with, the conditions of this consent relevant to activities they carry out in respect of the development.	At all times	Ensure relevant conditions of consent are communicated to relevant personnel	<p>All employees are made aware of the Consent Conditions and their obligations during Induction (online). Additional site-specific induction training is then provided by the HSE Officer.</p> <p>Contractors are also notified of their obligations to comply with Consent Conditions during the tender process where a copy of the Development</p>	Compliant

Construction Compliance Report 2

November 2020

				Consent is provided as part of the tender documentation.	
UTILITY SERVICES					
C16	Prior to the commencement of work, the Applicant is to obtain written approval from the utility authorities (electricity supply authority, an approved telecommunications carrier and an approved gas carrier, where relevant) in connection with the relocation and/or adjustment of the services affected by the construction of the underground structure. Any costs in the relocation, adjustment or support of services are to be the responsibility of the developer.	Pre-Construction	Relevant utility approvals required prior to construction	Reported on in first report. No further update	Compliant
HOARDING					
C17	A separate application under section 138 of the Roads Act 1993 is to be made to the relevant road authority to erect a hoarding and/or scaffolding in a public road (if required) and such application is to include: (a) architectural, construction and structural details of the design as well as proposed artwork (b) structural certification prepared and signed by an appropriately qualified practising structural engineer. Evidence of the issue of a Structural Works Inspection Certificate and structural certification will be required prior to the commencement of construction works on site.	Pre-Construction	Relevant approvals required prior to construction	Reported on in first report. No further update	Compliant
GEOTECHNICAL REPORTS					
C18	Prior to the commencement of any excavation works on site, the Applicant shall submit to the PCA, the results of a detailed geotechnical investigation on the site. The report is to address such matters as: (a) appropriate drilling methods and techniques (b) vibration management and monitoring	Pre-Construction	Relevant approvals required prior to construction	Items a-e are requirements of one document and therefore not broken up. Reported on in first report. No further update.	Compliant

Construction Compliance Report 2

November 2020

	(c) dilapidation survey (d) support and retention of excavated faces (e) hydrogeological considerations. The recommendations of the report are to be implemented during the course of the works.				
ARCHAEOLOGY					
C19	If any unexpected archaeological relics are uncovered during the course of construction, all work shall immediately cease in that area and a written assessment of the nature and significance of the resource, along with a proposal for the treatment of the remains shall be submitted for the approval of the Planning Secretary.	Construction	Follow details of condition		Not triggered
C20	If any unexpected Aboriginal objects are uncovered during the course of construction, all work shall immediately cease in that area and a written assessment of the nature and significance of the resource, along with a proposal for the treatment of the object(s) shall be submitted for the approval of the Planning Secretary.	Construction	Follow details of condition		Not triggered
C21	Should any of the subterranean structure of the building, such as brick arch footings, or other rail associated infrastructure be revealed during excavation or site preparation works, then works must cease and an appropriately qualified historical archaeologist must investigate and archivally record any of the building fabric or rail associated infrastructure found. A final archival record must be submitted to the Planning Secretary, Council and the Heritage Council, prior to the issue of the first Occupation Certificate for the Locomotive Workshop.	Construction	Archival report to be submitted to Planning Secretary, Council and Heritage Council prior to first occupation certificate		Not Triggered
DISCOVERY OF ABORIGINAL HERITAGE					
C22	In the event that surface disturbance identifies a new Aboriginal object, all works must halt in the immediate	Construction	Follow details of condition		Not triggered

November 2020

	area to prevent any further impacts to the object(s). A suitably qualified archaeologist and the registered Aboriginal representatives must be contacted to determine the significance of the objects. The site is to be registered in the Aboriginal Heritage Information Management System (AHIMS) which is managed by OEH and the management outcome for the site included in the information provided to AHIMS. The Applicant must consult with the Aboriginal community representatives, the archaeologist and OEH to develop and implement management strategies for all objects/sites.				
HERITAGE – ARCHIVAL RECORD					
C23	A photographic archival recording of all areas of Bays 1 – 4a within the Locomotive Workshop must be prepared prior to the commencement of works, and following completion of works to Bays 1 – 4a, in accordance with the NSW Heritage Division publication 'How to prepare archival records of heritage items and Photographic recording of Heritage Items using Film or Digital Capture'.	Construction	Submit archival recording prior to construction and following completion of works.	Reported on the first compliance report regarding prior to construction. The completion of works requirement is not triggered.	Not Triggered
C24	Any significant fabric that is proposed to be removed must be recorded, tagged and securely stored on site for future use. A removal and storage methodology must be provided to the Heritage Council prior to the commencement of works.	Pre-construction	Methodology to be submitted prior to the commencement of works	Reported on in first compliance report. No further action	Compliant
PRESERVATION OF SURVEY MARKS					
C25	All works in City of Sydney Council streets must ensure the preservation of existing permanent survey marks (a brass bolt, or a lead plug holding a brass tack, covered by a cast iron box). At least forty-eight hours prior to the commencement of any works in the public way within 1 metre of a permanent survey mark contact must be made with the City's Project Manager Survey / Design Services to arrange for the recovery of the mark.	Pre-Construction	<ul style="list-style-type: none"> Compliance with condition 48 hours prior to commencement of works 	Reported on in previous compliance report. No further action	Compliant

Construction Compliance Report 2

November 2020

	A fee must be paid to the Council for the replacement of any permanent survey mark removed or damaged in accordance with the City's Schedule of Fees and Charges (Reinstatement of Survey Box).				
PROTECTION OF SURVEY INFRASTRUCTURE					
C26	Prior to the commencement of any work on site, a statement prepared by a Surveyor registered under the Surveying Act 2002 must be submitted to Council verifying that a survey has been carried out in accordance with the Surveyor General's Direction No. 11 – Reservation of Survey Infrastructure. Any Permanent Marks proposed to be or have been destroyed must be replaced, and a "Plan of Survey Information" must be lodged at the Land and Property Management Authority, to ensure that the survey control infrastructure and cadastral framework are preserved for the public benefit and in accordance with the Surveying Act 2002.	Pre-Construction	<ul style="list-style-type: none"> Compliance with condition prior to commencement of works 	Reported on in previous compliance report. No further action	Compliant
PART D DURING CONSTRUCTION					
DEMOLITION					
D1	Demolition work must comply with Australian Standard AS 2601-2001 The demolition of structures (Standards Australia, 2001). The work plans required by AS 2601-2001 must be accompanied by a written statement from a suitably qualified person that the proposals contained in the work plan comply with the safety requirements of the Standard. The work plans and the statement of compliance must be submitted to the PCA before the commencement of works.	Construction	Work plans and the statement of compliance must be submitted to the PCA before the commencement of works.	Reported on in previous compliance report. No further action	Compliant
CONSTRUCTION HOURS					
D2	Construction, including the delivery of materials to and from the site, may only be carried out between the following hours: (a) between 7:30 am and 5:30 pm, Mondays to Fridays inclusive; and	Construction	Works to occur within DA hours	Ongoing. Construction hours are specified in contractors' scope of works and adhered to by Mirvac Construction.	Compliant

Construction Compliance Report 2

	(b) between 7:30 am and 3:30 pm, Saturdays.				
D3	No work may be carried out on Sundays or public holidays.	Construction	Works to occur within DA hours	The construction site is closed on Sundays and public holidays	Compliant
D4	Activities may be undertaken outside of these hours if required: (a) by the Police or a public authority for the delivery of vehicles, plant or materials; or	Construction	Note		Not triggered
D4	(b) in an emergency to avoid the loss of life, damage to property or to prevent environmental harm.	Construction	Note		Not triggered
D5	Notification of such activities must be given to affected residents before undertaking the activities or as soon as is practical afterwards.	Construction	Note		Not triggered
D6 (as modified)	Rock breaking, rock hammering, sheet piling, pile driving and similar activities may only be carried out between the following hours: (a) 9.00 am to 12.00 pm, Monday to Friday; (b) 2.00 pm to 5.00 pm Monday to Friday; and (c) 9.00 am to 12.00 pm, Saturday.	n/a			Deleted under SSD 8517 MOD 2
REMEDIATION					
D7	The Proponent shall undertake the remediation works in accordance with the recommendations of the Remedial Action Plan (RAP) prepared by JBS&G, dated 15 June 2016 (Ref: 51142/104280 (Revision 0)). Any amendments to the approved Remedial Strategy must be approved by the Site Auditor.	At All times	Remediation works to be in accordance with RAP document	Staged remediation works are ongoing on the project in accordance with the RAP. Validation of any areas has been triggered	Compliant
WASTE CLASSIFICATION AND DISPOSAL					
D8	The Applicant must ensure that all waste generated by the development is classified and disposed of in accordance with the EPA's Waste Classification Guidelines 2009. These Guidelines may indicate the	Construction	Compliance with EPA's Waste Classification Guidelines during works	Waste management during remediation works onsite have occurred in accordance with D8.	Compliant

Construction Compliance Report 2

November 2020

	material will need to be immobilised prior to disposal. If this is the case, the Applicant must apply to the EPA for a site-specific immobilisation approval.				
	UTILITIES				
D9	The Applicant shall be responsible for all public utility adjustment/ relocation works, necessitated by the development and as required by the various public utility authorities and/ or their agents.	Construction	Applicant responsible for any further utility approvals		Not triggered
	CONSTRUCTION NOISE CRITERIA				
D10	The development shall be constructed with the aim of achieving the construction noise management levels detailed in the Interim Construction Noise Guideline (Department of Environment and Climate Change, 2009) or within the noise limits predicted in the applicant's Noise and Vibration Report that formed part of the EIS. All feasible and reasonable noise mitigation measures shall be implemented and any activities that could exceed the construction noise management levels shall be identified and managed in accordance with the approved CNVMP.	Construction	Compliance with D10 noise required	No complaints or works that exceed the requirements have been recorded. Therefore compliance has been achieved in the reporting period.	Compliant
D11	Any noise generated during the construction of the development must not be offensive noise within the meaning of the Protection of the Environment Operations Act, 1997 or exceed approved noise limits for the site.	Construction	Compliance with D11 noise required	No complaints or works that exceed the requirements have been recorded. Therefore compliance has been achieved in the reporting period.	Compliant
D12	All work, including demolition, excavation and building work must comply with the Australian Standard 2436-2010 'Guide to Noise and Vibration Control on Construction, Demolition and Maintenance Sites' or this consent where different.	Construction	Compliance with D11 noise required	No complaints or works that exceed the requirements have been recorded. Therefore compliance has been achieved in the reporting period.	Compliant
	SAFE WORK AUSTRALIA REQUIREMENTS				
D13	To protect the safety of work personnel and the public, the work site shall be adequately secured to prevent access by unauthorised personnel, and work	Construction	Ensure requirements of condition adhered to on site.	There is 24 hr, 7 days/week security patrols for the South Eveleigh precinct including the Locomotive Workshops.	Compliant

Construction Compliance Report 2

November 2020

	shall be conducted at all times in accordance with relevant Safe Work Australia requirements.			There have been no notifiable incidents reported to Safe Work Australia. All site entrances are secured with road traffic controllers present at the main site vehicle entrance.	
HAZARDOUS AND INDUSTRIAL WASTE					
D14	Hazardous and/or industrial waste arising from the demolition/operational activities must be removed and/or transported in accordance with the requirements of the Office of Environment and Heritage and the NSW Work Cover Authority pursuant to the provisions of the following: (a) Protection of the Environment Operations Act 1997; (b) Protection of the Environment Operations (Waste) Regulation 2014; (c) Waste Avoidance and Recovery Act 2001; and (d) Work Health and Safety Act 2011 and Work Health and Safety Regulation 2017.	Construction	Remove waste in accordance with requirements a-d of D14.	Similarly, to D8, Mirvac continue to remove waste in accordance with guidelines.	Compliant
COVERING OF LOADS					
D15	All vehicles involved in the excavation and/ or demolition process and departing from the property with materials, spoil or loose matter must have their loads fully covered before entering the public roadway.	Construction	Ensure contractors comply with condition	To Mirvac's knowledge compliance is achieved in the reporting period	Compliant
VEHICLE CLEANSING					
D16	Prior to the commencement of work, suitable measures are to be implemented to ensure that sediment and other materials are not tracked onto the roadway by vehicles leaving the Site. It is an offence to allow, permit or cause materials to pollute or be placed in a position from which they may pollute waters.	Pre-construction and construction	Measures implemented prior to commencement of works and ongoing	Reported on in previous report, excavation and construction works complete.	Compliant

Construction Compliance Report 2

November 2020

	NO OBSTRUCTION OF PUBLIC WAY				
D17	The public way must not be obstructed by any materials, vehicles, refuse skips or the like, under any circumstances. Non-compliance with this requirement will result in the issue of a notice by the Secretary to stop all work on site.	Construction	Ongoing requirement to comply with	traffic controllers are engaged by Mirvac to manage the traffic and pedestrians to ensure the safety of pedestrians and the public ways are not obstructed.	Compliant
	BUNDING				
D18	The Applicant shall store all chemicals, fuels and oils used on-site in appropriately bunded areas in accordance with the requirements of all relevant Australian Standards, EPL requirements and/or EPA's Storing and Handling Liquids: Environmental Protection – Participants Handbook.	Construction	Ensure compliance with D18 onsite	Contractors are responsible for storing hazardous chemicals. Mirvac construction HSE ensure this is in accordance with D18.	Compliant
	SITE NOTICE				
D19	<p>A site notice(s) shall be prominently displayed at the boundaries of the site for the purposes of informing the public of project details including, but not limited to the details of the Builder, PCA and Structural Engineer. The notice(s) is to satisfy all but not be limited to, the following requirements:</p> <p>(a) minimum dimensions of the notice are to measure 841mm x 594mm (A1) with any text on the notice to be a minimum of 30 point type size;</p> <p>(b) the notice is to be durable and weatherproof and is to be displayed throughout the works period</p> <p>(c) the approved hours of work, the name of the site/project manager, the responsible managing company (if any), its address and 24 hour contact phone number for any inquiries, including construction/noise complaint are to be displayed on the site notice; and</p> <p>(d) the notice(s) is to be mounted at eye level on the perimeter hoardings/fencing and is to state that unauthorised entry to the site is not permitted.</p>	At all times	Site notice onsite	Mirvac have not broken up items a-d as it is not appropriate. Compliant site notice reported on in first report is still applicable onsite.	Compliant

Construction Compliance Report 2

	requirements of Clauses 17 and 18 of SEPP 55 - Remediation of Land.				
CONTAMINATION - LONG TERM ENVIRONMENTAL MANAGEMENT PLAN					
E3	<p>Prior to the issue of the first Occupation Certificate for Bays 1 – 4a, the Applicant shall prepare and implement a Long Term Environmental Management Plan (LTEMP). The plan shall be prepared by a suitably qualified and experienced person, be submitted to an EPA Accredited Site Auditor for review and approval within one month of the completion of remediation works, unless otherwise agreed by the Secretary. The LTEMP shall include, but not be limited to:</p> <p>(a) a description of the nature and location of any contamination remaining on site;</p> <p>(b) provisions to manage and monitor any remaining contamination;</p> <p>(c) a groundwater monitoring program to assess the potential impact of fill material placed below ground water;</p> <p>(d) mechanisms to report results to relevant agencies;</p> <p>(e) triggers that would indicate if further remediation is required; and</p> <p>(f) details of any contingency measures that the Applicant would carry out to address any ongoing contamination.</p> <p>Upon completion of the remediation works, the Applicant shall manage the site in accordance with the LTEMP and any on-going maintenance of remediation notice issued by the EPA under the CLM Act.</p>	Pre-Occupation Certificate	Prepare LTEMP in accordance with requirements a-f of the condition and submit for the first OC.	Items a-f are written requirements of the LTEMP and not reportable actions. Compliance achieved in the issue of the Interim occupation Certificate, dated 26 th May 2020 by Philip Chun. This is applicable for Stage 1A only as discussed in E2.	Compliant
HERITAGE INTERPRETATION					

Construction Compliance Report 2

November 2020

E4	Within 12 months of the issue of the first Occupation Certificate for the Locomotive Workshop, the Applicant shall implement the proposals and recommendations of the approved Stage 2 Heritage Interpretation Plan for the Locomotive Workshop, including the physical elements and digital elements associated with the travelator.	Post Occupation Certificate	Implement Stage 2 HIP requirements		Not triggered
E5	Future development applications must ensure that fit out works are consistent with the approved Stage 2 Heritage Interpretation Plan.	At all times	Reference Stage 2 HIP in tenant DA's	Tenant DA's are approved by Curio Projects who prepared the Stage 2 HIP, fitouts are approved in accordance with the Stage 2 HIP	Compliant
ONGOING CURATION, INTERPRETATION AND CONSERVATION					
E6	Within 12 months of the issue of the first occupation certification, the applicant must prepare a strategy in consultation with the Heritage Council and Council in regard to the on-going management of the cultural heritage tourism initiatives including curatorial programs, interpretation updates, and repairs and maintenance to moveable heritage assets. The strategy must include detail of ongoing funding.	Post Occupation Certificate	Prepare strategy to close out E6		Not triggered
SYDNEY WATER COMPLIANCE					
E7	A Section 73 Compliance Certificate under the Sydney Water Act 1994 must be obtained from Sydney Water Corporation.	Pre-Occupation Certificate	Obtain S73 Certificate	Certificate received on 20/05/20	Compliant
OCCUPATION CERTIFICATE					
E8	An Occupation Certificate must be obtained from the PCA prior to commencement of occupation or use of the whole or any part of a new building, an altered portion of, or an extension to an existing building.	Pre-Operation	An OC must be issued prior to operation	Operation or commencement of use has not been triggered but the OC has been obtained on 26/05/20	Compliant
PUBLIC DOMAIN WORKS					
E9 (as modified)	The works to the public domain are to be completed in accordance with the approved public domain plan and as shown in the Civil Works Staging Plan, Rev 4,	Commencement of Use	Works to be completed in accordance with staging plan		Not triggered

Construction Compliance Report 2

November 2020

	<p>prepared by Mirvac, dated 21/01/20. Staging is as follows:</p> <ul style="list-style-type: none"> - Innovation Plaza: prior to the commencement of use bays 1&2 <p>Locomotive Street Stage 1: prior to the commencement of use of bays 3-4a (ground level)</p> <p>Locomotive Street Stage 2: prior to the commencement of use of bays 5-15</p>				
MECHANICAL VENTILATION					
E10	<p>Following completion, installation and testing of all the mechanical ventilation systems, the Applicant shall provide evidence to the satisfaction of the PCA, prior to the issue of the relevant Occupation Certificate, that the installation and performance of the all mechanical systems complies with:</p> <ul style="list-style-type: none"> (a) the BCA; (b) Australian Standard AS1668 and other relevant codes; (c) the development consent and any relevant modifications; and (d) any dispensation granted by the New South Wales Fire Brigade and having regard to any approvals issued by the Independent Liquor and Gaming Authority (ILGA). 	Pre-Occupation certificate	Installation certificate to confirm requirements of condition a-d	Fredon provided installation certificate certifying relevant mechanical systems subject to the first occupation certificate (26/05/20), not appropriate to break down all items a-d the one installation certificate complied with all items and was approved by the PCA.	Compliant
TRAVEL DEMAND MANAGEMENT					
E11	<p>The Applicant shall prepare a Work Place Travel Plan, in consultation with TfNSW, for the proposed development which must be approved by the Planning Secretary prior to issue of the first Occupation Certificate for Locomotive Workshop. The Plan shall be included in the staff induction information for incoming employees and shall aim to achieve the following:</p>	Pre-Occupation Certificate	Prepare Work Travel Plan and submit to the Planning Secretary for approval.	The Work Place Travel Plan was approved by the Planning Secretary on 2/03/20. The Plan complied with all items a-h and therefore Mirvac consider its not necessary to break down each items and confirm how compliance was obtained.	Compliant

November 2020

	<p>(a) Facilitate the sustainable and safe travel of staff;</p> <p>(b) Encourage high modal share for public transport, cycling and walking to work with flexible working arrangements;</p> <p>(c) Provide appropriate facilities at the site to enable staff and visitors to commute by sustainable transport modes;</p> <p>(d) Reduce the need to travel for work related activities;</p> <p>(e) Avoid parking on local streets in residential areas;</p> <p>(f) Establish a means of monitoring the mode share of employees and visitors;</p> <p>(g) Raise awareness of sustainable transport amongst staff; and</p> <p>(h) Reduce the number of car journeys associated with business travel by staff and visitors.</p>				
POST CONSTRUCTION DILAPIDATION REPORT					
E12	<p>Prior to the commencement of first use of the commercial bays (5-15) of the Locomotive Workshop:</p> <p>(a) the Applicant shall engage a suitably qualified person to prepare a post-construction dilapidation report at the completion of the construction works. This report is to ascertain whether the construction works created any structural damage to adjoining buildings, infrastructure and roads;</p>	<p>Commencement of first use of the commercial bays (5-15)</p>	<p>Prepare a post-construction dilapidation report at the completion of the construction works</p>		<p>Not triggered</p>
	<p>(b) the report is to be submitted to the PCA. In ascertaining whether adverse structural damage has occurred to adjoining buildings, infrastructure and roads, the PCA must:</p>	<p>Commencement of first use of the commercial bays (5-15)</p>	<p>Comply with requirement of item</p>		<p>Not triggered</p>

Construction Compliance Report 2

November 2020

	(c) compare the post-construction dilapidation report with the pre-construction dilapidation report required by these conditions; and	Commencement of first use of the commercial bays (5-15)	Comply with requirement of item		Not triggered
	(d) have written confirmation from the relevant authority that there is no adverse structural damage to their infrastructure and roads.	Commencement of first use of the commercial bays (5-15)	Comply with requirement of item		Not triggered
	(e) a copy of this report is to be forwarded to the Secretary and each of the affected property owners.	Commencement of first use of the commercial bays (5-15)	Comply with requirement of item		Not triggered
FIRE SAFETY CERTIFICATION					
E13	Prior to the issue of the relevant Occupation Certificate, a Fire Safety Certificate shall be obtained for all the relevant Essential Fire or Other Safety Measures forming part of this consent. A copy of the Fire Safety Certificate must be submitted to the relevant authority and PCA and be prominently displayed in the building.	Relevant OC	Fire Safety Certificate to be obtained for relevant OC	Fire Safety certificate obtained on 15/05/20 for the first OC on 26/05/20.	Compliant
STRUCTURAL INSPECTION CERTIFICATE					
E14	A Structural Inspection Certificate or a Compliance Certificate must be submitted to the satisfaction of the PCA prior to the issue of the relevant Occupation Certificate and/or use of the premises. A copy of the Certificate with an electronic set of final drawings (contact approval authority for specific electronic format) shall be submitted to the PCA after: (a) the site has been periodically inspected and the Certifier is satisfied that the structural works is deemed to comply with the final design drawings; and	Relevant OC	Structural inspection certificate to be obtained and submitted for approval to the PCA	Arcadis inspected the premises on several occasions and provided their signoff off on 21/05/20	Compliant

Construction Compliance Report 2

November 2020

E14	(b) the drawings listed on the Inspection Certificate have been checked with those listed on the final Design Certificate/s.	Relevant OC	Structural inspection certificate to be obtained and submitted for approval to the PCA	The PCA confirmed compliance with this condition, this was a requirement of issuing the relevant OC.	Compliant
WASTE DISPOSAL					
E15	All waste generated on site must be classified and disposed of in accordance with the Waste Classification Guidelines (DECC 2008).	Commencement of Use	Generated waste to be disposed in accordance with guidelines		Not triggered
E16	Prior to the issue of the first Occupation Certificate for Bays 1-4a, the building owner must ensure that there is a contract with a licensed contractor for the removal of all waste. No garbage is to be placed on the public way, e.g. footpaths, roadways, plazas, reserves, at any time.	Pre-Occupation Certificate	Contract with waste contractor	Contract is in place for the South Eveleigh Precinct and includes the Locomotive Workshop. Approved by the PCA.	Compliant
E17	Prior to the issue of any Occupation Certificate, details shall be submitted to the satisfaction of the PCA that waste handling works have been completed in accordance with Condition E13.	Pre-Occupation Certificate	Letter from Construction to confirm compliance	Letter signed by Mirvac Construction confirmed compliance with condition and was approved by the PCA.	Compliant
ACOUSTIC COMPLIANCE					
E18	Prior to the issue of the first Occupation Certificate, or commencement of use, whichever occurs first, evidence shall be submitted to the PCA demonstrating compliance with all recommendations of the Acoustic Assessment, prepared by Arup, and amended reports submitted as part of the EIS and the development achieves compliance with the requirements of State Environmental Planning Policy (Infrastructure) 2007 and other guidelines applicable to the development.	Pre-Occupation Certificate	Acoustic Engineer to confirm compliance	Arup provided certificate confirming compliance with condition requirements on 15/05/20.	Compliant
LOADING DOCK MANAGEMENT PLAN					
E19	Prior to the commencement of first use in the Locomotive Workshop, a Loading Dock Management Plan shall be prepared in consultation with the Sydney Coordination Office and Council and submitted to the Planning Secretary for approval. The	Commencement of Use	Loading Dock Management Plan to satisfy the requirements a-k. Plan to be prepared in	Mirvac consider that items a-k are requirements of the LDMP document which has been approved by the planning secretary, therefore indicating	Compliant
