

PROJECT UPDATE

DECEMBER 2020

Welcome to December's project update for Ashford Residences by Mirvac.

We would like to thank the community for their cooperation and patience throughout 2020. There has been a significant amount of works completed this year and we are almost finished civil construction in Stages 1, 2 and 3A. As well as this, we are nearing completion of the fill importation for the whole of the site which is scheduled to be finalised prior to Christmas.

While there will still be construction vehicles entering the site next year, the frequency of the large fill trucks will reduce significantly once filling works are completed this year.

The Ashford Residences site will be closed from 24 December until 4 January 2021.

STAYING UP TO DATE AND HOW TO CONTACT US

If you have any questions or concerns regarding construction activities, please contact our community information team directly via telephone on: 1300 659 694 or via community.information@mirvac.com

We would like to wish you a Merry Christmas and Happy New Year.
