

Parts of a Tree Activity Sheet

Do you know all the different parts of a tree?

Bring the tree to life with some colour then use the labels on page 2 to name the different parts of the tree!

Parts of a Tree Activity Sheet

Cut around the dotted lines and use the labels to name the correct parts of the tree on page 1.

1. LEAVES

2. ROOTS

3. TWIGS

4. BARK

5. BRANCHES

6. TRUNK

7. FRUIT

Draw a line to match each part of the tree with its description!

LEAVES

Large, central support of the tree.

ROOTS

Use photosynthesis to create food for the tree to grow.

TWIGS

The protective 'skin' of the tree.

BARK

Anchor the tree in the ground and suck up much needed water and nutrients.

BRANCHES

Wooden 'arms' of the tree.

TRUNK

Produced if the tree is a flowering plant.

FRUIT

Slim offshoots from the larger branches of a tree.
